In Niger, girls can get married at the age of fifteen. But, in real life, many girls get married at eleven or twelve. Why is child marriage happening in Niger?

It's because those girls' families are poor. Through marriage, parents can get some money from the girls' bridegrooms; usually old men. In other words, the parents "sell" their daughters.

Those poor girls become wives and young mothers. They can't take very good care of their babies. Also, they may become weak because they have babies at an early age.

Besides, those young mothers cannot go to school because they must look after their babies. They can't go to school, so they cannot read or find any good jobs. No job means no money. No money means a life of poverty.

These poor new mothers then sell their own daughters, and the vicious cycle goes on and on. Child marriage is a problem. Can we do anything for those girls?

Dear Miss Red,

I am a senior high school student. I like English, and I like western culture very much. I want to study in the USA after I finish senior high school. I told my family about this last night. But, they said, "Jenny, we don't have much money. Your brother is thirteen and your sister is only nine. We need to save money for them." I am sad about this. Why can't they say yes?

Sad Jenny

Dear Jenny,

I am sorry to hear about that. But, do you know anything about studying in the USA? For a college student in the USA, the cost of living and tuition together is about NT\$ 1,000,000 to NT\$ 1,250,000 for only one year. So you need NT\$ 4,000,000 to NT\$ 5,000,000 to study at a college in the USA. It is really a big cost for a family. So, don't be angry with your family. Sometimes, money is the problem. For young people like you, working holiday can be another choice.

For example, you could go on a working holiday to Canada, Australia, or the USA. During a working holiday, you can make friends with the locals, practice English with them, and get to know western culture from them. Also, you can make money during your working holiday, and even save enough money to study in the USA. Where there is a will, there is a way!
