# Honor Killing

In the world, a child marriage happens every 2 seconds. These marriages are not happy at all, and the life of a child bride is a nightmare. Their husband often hits them, but they must always do everything he says. The girls must stay married forever, and cannot get a divorce.

Kaarmila was a nine-year-old girl from Niger. Her family told her to marry an old man, but she said no. She ran away from home, and her family was very angry. Kaarmila's family found her, and then killed her. In countries with child marriage, there is also honor killing. Not listening to your family brings shame and disgrace to them. For them, killing the girl is the only way to make it all go away.

Kaarmila's story is very sad, but it's not the only one. Many girls die from honor killing every day! Join me, friends. Together, we can end honor killing in the world!

Wow! India is an amazing place! I arrived here just two days ago and already experienced so much. On my first day, I tried some delicious paneer. Paneer is a kind of curry. There were pieces of cheese in it and it was very tasty. I ate the curry with yellow rice and also had a mango drink.

On my second day, I went to a market for some shopping. I saw cows everywhere, just walking up and down the streets! What a surprise! I was very careful that day. I didn't want to walk in cow poop!

India is a very hot country. I took so much water with me when I went out today! I stopped at a clothing store and saw many beautiful clothes there. The women here wear really colorful clothes! Every time I go out, I see a rainbow in the streets.

This holiday really opened my eyes. Traveling is really fun and I enjoyed it a lot. I want to travel the whole world now!
