Amy: Yes, it's so uncomfortable! I always have a fan on these days.  
John: Because of global warming, the Earth is getting warmer every year. This is very bad for the animals and plants. It's time for us to think about things more carefully.  
Amy: That is really sad, but what can we do?  
John: We can grow lots of plants.  
Amy: What else?  
John: Always turn off the lights when you leave a room, and open the windows before you turn on a fan. It can help keep the Earth cool.
