The Most Famous Clock Tower – Big Ben

延續本課主題，介紹英國地標大笨鐘整修的故事。

Big Ben, one of the most famous clock towers around the world, worked for London's Elizabeth Tower for 157 years. The final chime was at noon on August 21, 2017. Many people got together to hear its ringing.

Steven Jaggs, the Keeper of the Clock, made the decision to clean and fix the tower. In order to protect workers' hearing, the ringing of Big Ben stopped. The bell will only ring for special reasons, like New Year's Eve. There will be an elevator for visitors' convenience. People who have difficulties climbing stairs will have a chance to visit the well-known clock. In addition, the holes and cracks in the roof and walls will be fixed. Moving in the tower will be a lot safer. The old systems of the tower will also be changed and updated so that they can save energy.

Big Ben is coming back. To mark the start of 2022, the bell chimed 12 times on the New Year's Day. There are some final tests left, and all the construction work is about to end this month. People are excited to see the brand new clock tower.
