Remember not to put in too many tea leaves, or your tea will be too strong. Strong tea tastes a little bitter (苦的), but some people like it. And don't forget to smell the tea before you enjoy it. Also, you can put some ice into the hot tea. Iced tea is popular, too.

If you think using tea leaves is too much trouble, you can use tea bags. All you need to do is put a tea bag and hot water in the cup.

Some people put milk into the tea, and it is milk tea. This is another kind of tea.

They make a few sounds above water. They come up out of the water because they need to breathe. They make more sounds under water. People cannot hear these sounds because these sounds are very, very high. Scientists make tapes of these sounds and study them. Actually, some people like to listen to dolphin sounds to relax.

Sometimes people catch dolphins for a large aquarium(水族館). People can watch a dolphin show there. Dolphins do not like to be away from their pod. They feel sad and lonely.

Superfoods are foods that are full of vitamins(維生素) and nutrients(營養素). They are very good for health and fitness. Blueberries, chia seeds, and green tea are all superfoods. Some researches show a diet with many superfoods can prevent illness(疾病).

Superfoods can be part of our daily meals. Many people have blueberries with their breakfast in the early morning, as they are sweet and tasty. They are good as part of a meal or we can eat them alone. These small round berries came from North America, but now they grow in Europe as well. Blueberries contain a lot of vitamins which help the body stay healthy. The United States is the biggest national producer of blueberries. It grows 690 million pounds of the fruit every year.

Other healthy food comes from Mexico. Chia seeds contain a lot of fiber(纖維), which gives us energy and makes us feel full. You can add chia seeds into cereals, cakes, and smoothies. Just one ounce of these seeds contains 10% of our daily protein needs. Runners eat energy bars containing chia seeds to help them run for longer. Chia seeds help our blood stay healthy and "**lessen**" the risk of brain disease. We can eat these seeds all year round.

There are many ways to enjoy superfoods in drinks. Green tea is a healthy superfood. Chinese people drink about half of the green tea in the world. Studies show green tea is good for heart. It also helps you remember things better, and it can reduce stress. Some people don't like green tea, as they think it tastes bitter. Other people like this taste. Many families drink green tea at mealtimes or take it out in a bottle.
