In 490 B.C, there was a war called “Battle of Marathon” which was fought between the Persians(波斯人) and the Greeks(希臘人). The Greek army smartly knocked down their enemy even though they had fewer soldiers than the Persians did. A man named Philippides, the Greek messenger, was sent from Marathon to Athens to announce that they had won in the Battle of Marathon. It was said he ran the whole distance without stopping for resting from Marathon to Athens. He died right after he sent the message. “We have won!” was his last word.

People made the rule of the sport to remember this hero. The length of marathon was just the distance between Marathon Town to Athens, about 40 kilometers. But the distance has had an official distance of 42.195 kilometers since 1921.
